

TAILORS REFUSE REPAIRING.

Decline to Alter Suits Supplied by British.

BRADFIELD, Mass., April 17.—Tailors here who had been asked to make alterations in suits purchased by a large local insurance company for its employees in an effort to meet living costs have refused to touch the suits, it was announced today. The 15 employees who are to be supplied, therefore, will depend upon home help in fitting. The suits are all that could be obtained of a big consignment sent to this country by the British Government and to be distributed through big corporations. The suits were made for returned British soldiers.

Do-It-All
TRACTOR

"DO-IT-ALL" TRACTORS, the agricultural sensation of 1920. They plow on the level, with one ball wheel in the furrow the tractor is not tipped over. The furrow easily guides the tractor so as to make plowing easy. They also pull from a 3-inch to 15-inch plow in end or stubble. They cultivate any crop that grows; do orchard plowing, haul loads, give you 4 H. P. for belt work. Weight approximately 1,000 pounds. Many other valuable features. Free if you ask for Catalogue "G."

Vantine's
The Oriental Store.

Announce Their Annual Importation of

Chairs from Canton, China

WHETHER your summer home is a villa or a bungalow—be it in the hills or by the sea—you could not choose furniture more fitting than Vantine's cool, comfortable and artistic Canton furniture.

Vantine Canton Furniture includes chairs, tables, chaise longues, stands, stools, etc., each piece of which is woven by hand in Canton, China.

Unlike any other furniture, it is not affected by water. In fact, it is really benefited when occasionally subjected to a complete drenching. Being the lightest furniture made, it may be easily moved from place to place, and may be used on the lawn as satisfactorily as on the porch, as the "Hour-Glass" designs have no legs to sink into the earth.

Write for Booklet "Comfortable Summer Furniture." It illustrates and describes this unique Oriental craftsmanship. A copy will be mailed postpaid promptly upon request. Address Dept. "G."

ORANGE MARMALADE

CAN'T BEAT "TIZ"
WHEN FEET HURT

"Tiz" for sore, tired,
puffed-up, aching, cal-
loused feet or corns.

You can be happy-footed in a moment. Use "Tiz" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "Tiz" and only "Tiz" takes the pain and soreness out of corns, callouses and bunions. As soon as you put your feet in a "Tiz" bath you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "Tiz" is grand. "Tiz" instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, sweaty, smelly feet. Get a box of "Tiz" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.—Adv.

Those Pearly Teeth

Learn how people get them

All statements approved by high dental authorities

Millions of people now use a new way of teeth cleaning. Wherever you look you see the results of it. You see teeth that glisten as never before.

This is to urge you to test that method—free. See in ten days what it does for your teeth. Then remember that white teeth mean more than beauty. They mean cleaner, safer teeth.

You must fight film

To get white teeth, or save your teeth, you must above all fight the film.

Film is the teeth's great enemy—that viscous film which you feel with your tongue. Most tooth troubles are now traced to it.

Film clings to teeth, enters crevices and stays. Then, between your dental cleanings, it may do a ceaseless damage. And it also makes teeth dingy.

It is the film-coat that discolors—not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal.

Why very few escape

The ordinary tooth paste does not dissolve film, so the tooth brush has left much of it intact. Thus millions have found that well-brushed teeth still discolor and decay. Statistics show that tooth troubles have been constantly increasing, and very few escape.

Dental science, on this account, has sought a film combatant. Now, after much research, the method has been found. For five years it has been subjected to scientific tests. And now leading dentists all over America are urging its daily use.

The method is now embodied in a dentifrice called Pepsodent. This is an ideal modern tooth paste, made to meet every new-day requirement. But, above all, it efficiently fights film.

Supplied to millions

A ten-day test of Pepsodent has been supplied to millions. Thus it has quickly come into very general use. Now we urge that every home accept it.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

No money
accepted

For a 10-day Tube of Pepsodent. Even the postage is paid. Send the coupon for it, and judge by results if you need it.

A convincing test

This is to urge that you send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how the teeth whiten as the film-coat disappears.

You know the results of old methods. Compare them with the new for ten days. Then decide for yourself the method best for you and yours to employ. Do this now, for it is most important.

Children's teeth are most
important

Few children reach the age of 15 without much tooth destruction. And it often affects their whole lives. So Pepsodent is to children of supreme importance. You will see, perhaps, only new whiteness. But that whiteness means new cleanliness. You who have children owe this test to them. Cut out the coupon so you won't forget.
